 Radialight®

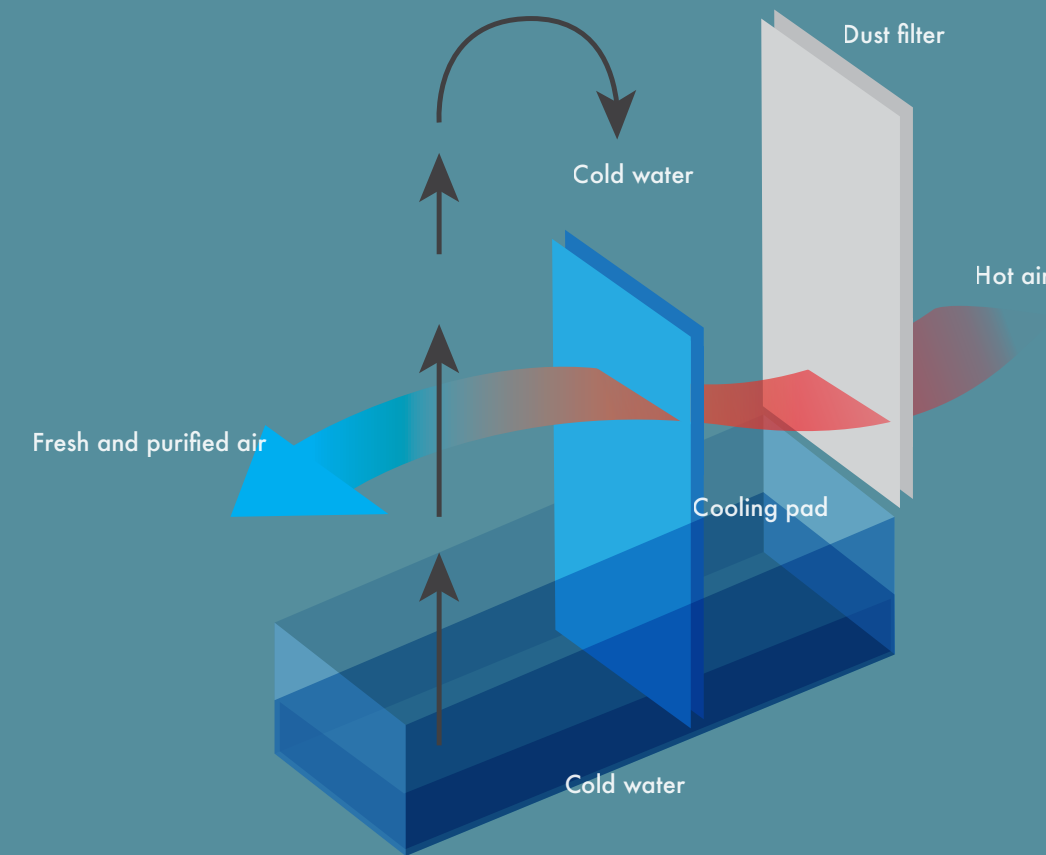

RADIALIGHT AIR TREATMENT

From today the Radialight world is even bigger, with products that improve your all-round comfort throughout the year. Even when you have to deal with the heat of summer or the damp that penetrated the walls of your home, Radialight offers you beautiful, functional, reliable solutions, using cutting-edge technology. No additional piping or outside unit, and very low energy consumption.

AER DOMUS
AER PRO

THE AIR COOLERS

The Radialight air coolers are the simplest, most economic, and lowest energy consumption ways of improving the comfort of your home, office, commercial premises, and even your outdoor spaces, such as verandas and patios. The hot air is first purified using a dust filter, and then cooled by passing through an evaporation panel that contains cold water that nebulises it.

AER DOMUS

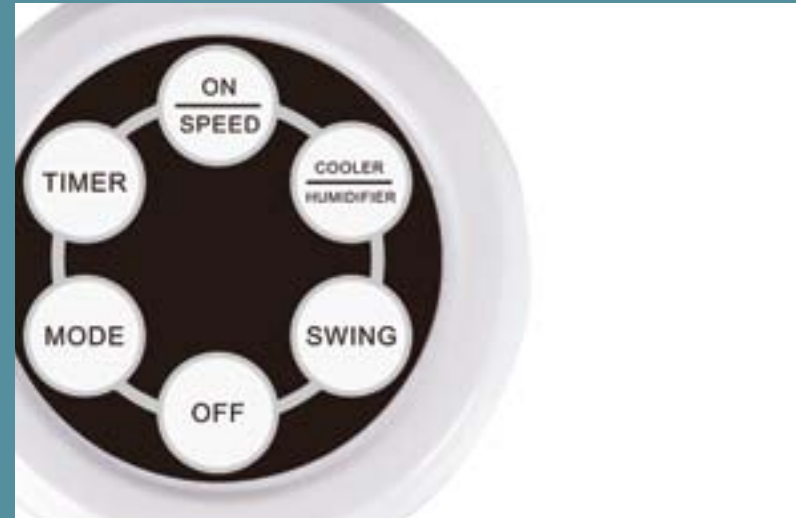

Discreet, elegant, easy to move around, suitable for cooling areas of up to 12 m², recommended for your home.

AER DOMUS

Portable air cooler for domestic use

Touchscreen controls, LED display

Elegant remote control

Washable dust filter

Practical, large, removable tank

- Can be controlled manually or using the elegant remote control
- 3 ventilation speeds: turbo, medium, silent
- Various options for personalised ventilation to suit your needs: continuous - natural - nighttime
- Double air purification system: removable, washable dust filter + ionising purifier
- Timer use option: from 30 min up to 7,5 hours
- Air outlet grille with automatic right and left oscillation
- Large 6 lit water tank - practical and removable
- 2 cooling panels supplied, for cooling the water in the tank
- Alarm function that stops the unit working if the water in the tank runs out
- Fitted with castors for easy movement

Fitted with castors for easy movement

Tank level indicator

AER PRO

Portable air cooler for commercial use and outdoor settings

AER PRO

Portable air cooler for commercial use and outdoor settings

Easy, user-friendly controls with LED display

Remote control

One of the most powerful in its category; for areas up to 30m²

Manual or automatic top-up option

- Can be controlled manually or using the elegant remote control
- 4 ventilation speeds: silent, medium, strong, turbo
- One of the most powerful in its category: 1000 m³/h air flow rate ; 12 m/sec ventilation
- Various options for personalised ventilation to suit your needs: continuous - natural - nighttime
- Timer use option: from 0,5 hours up to 7,5 hours
- Air outlet grille with automatic right and left oscillation
- Super large 30 lit water tank with automatic feed option
- Alarm function that stops the unit working if the water in the tank runs out
- Fitted with castors for easy movement

Fitted with castors for easy movement

Tank level indicator

KUBO

The super compact dehumidifier

KUBO

Small and elegant, KUBO fits into any space, even the smallest ones

Electronic, digital technology controls

Removable condensate collection tank

Fitted with castors for easy movement

Silent

- Takes out up to 12 lit of humidity per day (30°C, 80% r.h.)
- The humidity required can be regulated between 35 and 80%, with an additional function in automatic mode: KUBO automatically and intelligently regulates the correctly humidity level without you having to do anything
- It is very silent, because the dehumidification speed can be set at two speeds: high and low
- KUBO is safe, it switches off automatically if the tank fills completely, and indicates this condition
- KUBO is environment friendly, because it uses ecological R134a refrigerant
- The condensate collection tank is easy to remove and empty, and there is also a convenient automatic water drain option
- The electronic controls, with digital technology and an LED display, are easy to use
- The air filter is easy to remove and clean, and protects the product and your ambient settings from pollutants
- The timer function can be used to set operation from 1 to 24 hours
- KUBO is very practical and has castors to make it easy to move around, without lifting it
- It can work at low ambient temperatures (down to 5°C) thanks to its automatic defrosting system, with an indicator light

KUBO is practical, compact, and easy to position

Environment friendly, because it uses ecological R134a refrigerant

YOUR ALL-ROUND COMFORT

Aer Domus - Air cooler

Technical data:

Maximum air flow rate: 400 m³/h
 Maximum air speed at outlet: 6 m/sec.
 Maximum area cooled: 12 m²
 Maximum tank capacity: 6 lit
 Maximum noise level: 55 dBA
 Power: 230V 45 W
 Dimensions in cm: Width 26 ; Depth 26 ; Height 96
 Colour: white
 Double electrical insulation; CE

Aer Pro - Air cooler

Technical data:

Maximum air flow rate: 1000 m³/h
 Maximum air speed at outlet: 12 m/sec.
 Maximum area cooled: 30 m²
 Maximum tank capacity: 30 lit
 Maximum noise level: 65 dBA
 Power: 230V 170 W
 Dimensions in cm Width 36; depth 52; height 103
 Colour: white
 Double electrical insulation; CE

Kubo - Dehumidifier

Technical data:

Dehumidification capacity: 12 litres / day
 (30°C, 80% r.h.).
 Maximum tank capacity: 1,6 lit
 Maximum noise level: 43 dBA
 Power: 230V 260 W
 Dimensions in cm Width 31; Depth 25; Height 41
 Colour: white with blue frame
 Insulation class I ; CE
